TO: Nick Ceto

I have reviewed the Bunker Hill Complex asbestos removal work plan. The submitted plan would appear to adequately address the Asbestos Program's concerns regarding the Bunker Hill sites.

If any questions come up during the implementation of this project, and you would like the support of the Asbestos Program, please feel free to contact me again at (206) 442-1757. I appreciate the effort you've made to keep us informed about the progress on the Bunker Hill clean-up.
